## EDUCATION

|                                                                                       |             |
|---------------------------------------------------------------------------------------|-------------|
| <b>Bachelor of Computer Applications</b> , PANJAB UNIVERSITY, Chandigarh, (CGPA-7.3)  | [2022-2025] |
| <b>Intermediate</b> , Vivekanand Vidya Mandir Inter College Pithoragarh (Uttarakhand) | [2019-2022] |

## SKILLS

**Programming Languages:** PHP, JavaScript, SQL, HTML, CSS

**Database and Language:** Experience in MySQL, SQL

**Frameworks:** Working experience in Laravel, Bootstrap

**Version Control Tools and IDE:** Git, GitHub, Visual Studio Code, Cursor (AI Code Editor)

**Course Work:** Database and management system, Object-Oriented Programming, Software Development, Computer Networks, Operating Systems.

## PROJECTS

### Truckares - Fleet Management Platform | [truckares.com](https://truckares.com)

*Laravel, Livewire, PHP, MySQL, APIs*

- Contributed backend features for logistics operations and API integrations on a production Laravel codebase.

### Smart School Management System | [school.thesavantx.com](https://school.thesavantx.com)

*Laravel, PHP, MySQL, Tailwind CSS*

- Built backend modules for students, staff, attendance, exams, and role-based admin workflows.

### OEMS - Online Exam Microservices Platform | in development

*Laravel, PHP, MySQL, REST APIs, JWT, Docker, Microservices, BFF*

- Designed service boundaries for exam operations (auth, school, exam engine, student) that communicate over HTTP APIs with JWT.
- Worked on exam flows such as start, autosave, and submit, with tenant isolation by school.

## WORK EXPERIENCE

### PHP / Laravel Developer

[Aug 2025 – Present]

*(Promoted from Trainee to Developer after 6 months of structured training)*

- Shipping production Laravel features for Truckares - logistics/vehicle workflows, API integrations, and backend modules used by live teams.
- Delivered Laravel / PHP web applications and admin panels for businesses - authentication, MySQL, and database-driven modules.
- Built a Filament-powered school CMS to manage pages, notices, events, gallery, and announcements.
- Designing MySQL schemas, role-based access, request validation, and school-scoped backend logic for multi-tenant exam workflows.

### Freelancer Web Developer

- Building OEMS (Online Exam Management System) with Laravel microservices, REST APIs, JWT authentication, and Dockerized services covering identity, school, exam, and student domains.
- Implemented 3 BFF APIs (admin, student, superadmin) to aggregate downstream services and return consistent JSON without exposing internal ports.

## ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple IT fests and technical competitions during graduation at Panjab University.
- Worked on startup-based innovation projects and team-based technical presentations.
- Consistently engaged in technical development activities and practical project implementation.
